February 12, 2019

Dear High School Senior:

The Linn County Democratic Party is again sponsoring this year a scholarship program for Linn County seniors from Jayhawk-Linn, Pleasanton and Prairie View high schools.

Every senior who plans on attending a post-graduation school is eligible to receive the scholarship. Schools that qualify include colleges and universities, two-year community colleges and technical trade schools.

This year, Linn County Democrats have pledged to offer up to six scholarships with a minimum award of \$100 each. While our goal is to award two scholarships per school, we may award more to one school over another based on the quality and number of applications. We particularly encourage applications from seniors who plan to attend a technical or trade school that offers one- or two-year programs that teach skills like – but not limited to – mechanics, nursing, electrical and heating and cooling technology.

The application process is fairly simple, and we are particularly interested in your written response to questions.

Applications are due back in the counselor's office by noon on Friday, April 12, 2019. A committee of people who represent each high school district will make the final decision. Scholarship recipients will be determined by April 30, 2019.

If you have further questions, contact your school counselor or you may contact me directly. Congratulations on reaching this stage in your education, and good luck as you pursue your chosen field.

Roger Sims
